
The Howl

November 2020

"The wolf howl is a distinct call to action for the pack over vast distances or to summon members when attacked."

Greetings cyber wolves,

This week we will be talking about a **FREE** infographic about **Black Friday Scams** and a **FREE** to join webinar to introduce you to **CYBER RANGES**.

#protectioninthepack

The Wolfpack Team

Black Friday Scams Infographic - Feel Free to use in your Organisation

We have created a **FREE** infographic for you to use personally or at your offices. This infographic comes with two themes, a light and a dark theme, and highlights the scams you will need to look out for this Black Friday.

Access both versions for free via the **Alert Africa** site:

CYBER RANGES - Join our Webinar December 3 2020 - 10 to 11am

(CAT)

[Click Here To Register for the webinar](#)

Learn, train, test, measure and improve your digital dexterity and cyber resilience on our next-gen military-grade CYBER RANGES platform and technology.

From recruitment assessment, staff training, red team versus blue team challenges or industry / national cyber drills, you can:

- Choose from 600+ realistic simulations.
- Customise your simulation environment - choose from a massive library of commercial security systems and applications.
- Choose the attacks to simulate.
- Choose your difficulty level - then mature your team's capabilities.

DEPLOYMENT OPTIONS

Training limitations are a thing of the past. Whether on-premise, on the cloud or on the move, CYBER RANGES allows you to deploy the option that suits your specific needs best.

1. AS A SERVICE - access on a monthly subscription or on demand
2. HOSTED - access to a private environment, granting the organisation full control
3. ON PREMISE - total control, security & additional access to additional functionality
4. PORTABLE - One shockproof cabin luggage with three powerful custom laptops, secure Internet Access Module, network switch and cabling.

Literally train anywhere and anytime.
