
The Howl

December 2020

"The wolf howl is a distinct call to action for the pack over vast distances or to summon members when attacked."

Greetings cyber wolves,

This week we are providing you with a **FREE** article that covers **Shopping Scams** and a link to join our webinar next year introducing **CYBER RANGES** to South Africa.

Please note that this is our last newsletter for 2020. The Wolfpack team would like to wish you all a wonderful festive season. We look forward to engaging with you in the new year with more information and material.

Festive Season Travel Scams - Avoid Being Caught by Using These Tips

"In addition to legitimate businesses and retailers seeking to turn a profit this festive season, plenty of hackers and scammers are aiming to do the same by taking advantage of the euphoria of the festive season..." We have created a **FREE** article that covers shopping scams which you may face this festive season.

Access both versions for free via the **Alert Africa** site:

Desk Alerts

DeskAlerts is an internal communications software that allows sending up to 1,000,000 messages in 15 sec to any corporate device: PCs, phones, tablets, etc.

When there is a necessity to inform staff about ongoing malware/phishing attacks, security policies, and best practices, or conduct cybersecurity training, use DeskAlerts to reach all employees you want to be involved. It can also serve as a dedicated channel of staff communication if email/VoIP is compromised.

DeskAlerts has a wide range of communication tools such as pop-up alerts, corporate screensavers, wallpapers, desktop tickers, mobile apps, etc.

CYBER RANGES - Join our Webinar February 9 2021 - 11 to 12am (CAT)

[Click Here To Register for the webinar](#)

Learn, train, test, measure and improve your digital dexterity and cyber resilience on our next-gen military-grade CYBER RANGES platform and technology.

From recruitment assessment, staff training, red team versus blue team challenges or industry / national cyber drills, you can:

- Choose from 600+ realistic simulations.
- Customise your simulation environment - choose from a massive library of commercial security systems and applications.
- Choose the attacks to simulate.
- Choose your difficulty level - then mature your team's capabilities.

DEPLOYMENT OPTIONS

Training limitations are a thing of the past. Whether on-premise, on the cloud or on the move, CYBER RANGES allows you to deploy the option that suits your specific needs best.

1. AS A SERVICE - access on a monthly subscription or on demand
2. HOSTED - access to a private environment, granting the organisation full control
3. ON PREMISE - total control, security & additional access to additional functionality
4. PORTABLE - One shockproof cabin luggage with three powerful custom laptops, secure Internet Access Module, network switch and cabling.

Literally train anywhere and anytime

Literally train anywhere and anytime.

Buyers - Looking for new cybersecurity providers?

Sellers - Want to improve your lead generation? Get your free directory listing on Alert Africa.
