

Greetings Cyber Wolves

We trust that you and your family enjoyed some well-deserved downtime!

Smooth seas do not make good sailors and 2020 was definitely a testament to that. We all had the choice to sink or swim, change or be challenged, resist or be dragged, but looking ahead these experiences have geared us up for new opportunities and helped us prepare for the unexpected.

We may be weathering a few more storms with big waves this 2021, but as a cybersecurity community, you have shown your GRIT and resilience. Let us pull together and help where help is needed, optimise all the chances we get to perform, learn new things, grow into better professionals and emerge stronger to face a few more storms in 2021.

Sending best 2021 New Year wishes for a prosperous year.

The Wolfpack Team

GENERAL

We are excited to partner with CYBER RANGES in SA. Join our online launch event: Tuesday 9th Feb - 11:00 to 12:00.

Learn, train, test, measure and improve your cyber resilience on our next-gen military-grade CYBER RANGES platform and technology (Cloud or on-prem). From recruitment assessment, staff training, red team versus blue team challenges or industry / national cyber drills, you can:

- * Choose from 600+ realistic simulations.
- * Customise your simulation environment - choose from a massive library of commercial security systems and applications.
- * Choose the attacks to simulate.
- * Choose your difficulty level - then mature your team's capabilities.

DEPLOYMENT OPTIONS

Training limitations are a thing of the past.

1. **AS A SERVICE** - access on a monthly subscription or on-demand
2. **HOSTED** - access to a private environment, granting the organisation full control
3. **ON PREMISE** - total control, security & additional access to additional functionality
4. **PORTABLE** - One shockproof cabin luggage with three powerful custom laptops, secure Internet Access Module, network switch and cabling.

Literally train anywhere and anytime.
