Cyber Security Community Update

Greetings,

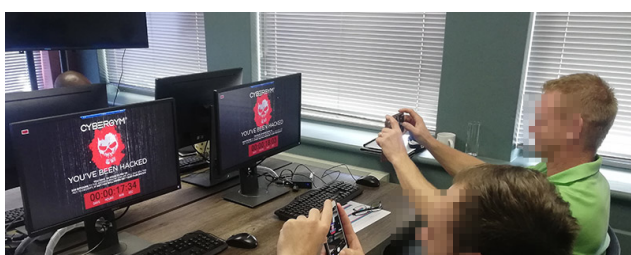

Important News Flash. A must read for all professionals who are committed to developing cyber security skills

Wolfpack is pleased to announce the first round of the **2019 CYBERGYM public training** courses in South Africa.

CYBERGYM has developed a global network of integrated cyber training and technology arenas to test an organisation's systems, processes and people capabilities against cyber attacks.

In **2018** we built the first African **CYBERGYM** arena in Johannesburg to help prepare management and technical teams to fend off real-time cyber attacks on complex, wide ranging systems and sensitive infrastructures.

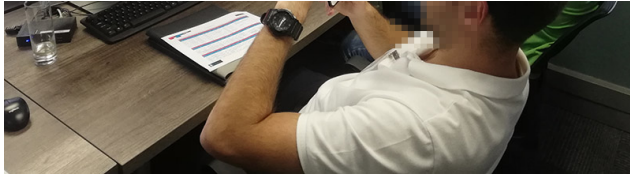

Testimonials:

Previous participants have given a thumbs up to the quality, experience and valuable skills gained by attending CYBERGYM training:

"The real-time exercises conducted in a hands-on virtualised environment were great"

"Well-designed training that will assist any organisation to improve their incident management procedures and processes."

"The malware analysis section

was an eye-opener.”

“The cyber crisis simulation between management and technical teams was realistic – We have many gaps to close when I get back to work!”

Upcoming 2019 Public Courses:

Venue:

Building 1, The Workspace, Pendoring Office Park, Northcliff, Johannesburg.

1. Cyber Defence Essentials - Aimed at sharpening the trainee’s skills at detecting and performing first analysis of cyber threats using various detection and monitoring tools.

Dates: 19 - 20th February / 24 - 25th April.

Cost per person: R 17,000 (Excl. VAT).

2. Incident Response Training - To provide the opportunity to experience and handle a wide range of cyber attacks. To sharpen skills in detecting, investigating, mitigating and recovering from cyber incidents.

Dates: 26 - 27th March.

Cost per person: R 17,000 (Excl.VAT).

For **larger teams** we are able to tailor any course to suit your specific organisation’s requirements. Please email us for more information at sa@cybergym.com

Visit our website [here](#) to view training outlines. Places are limited, **apply now**.

#ProtectionInThePack

Yours Securely,

The Wolfpack Team.
