Hello Cyberwolves

If nothing is going right, then go left. We sometimes need to reset, refocus, readjust and restart to get a new shift in perspective. This month we celebrate our workers and focus on awareness, education, and growth. Our Awareness team has created a Phishing Survival Guide to support employees on how to avoid phishing attempts. There is also a variety of FREE Training and webinar sessions at your fingertips. Educate and empower your work force and SME's this May, to work together and unite in the fight against cybercrime! Knowledge up, invest in your growth and register for all these FREE sessions. Always keep learning and challenging your perspective. Work smarter and not harder.

NEWS

Privacy regulations are taking centre stage around the world. Stiff penalties have been mandated for failure to adhere to these regulations. South Africa is no exception, with the Protection of Personal Information Act (POPIA) becoming law from 1 July 2021.

Happy World Password Day!

Did you know that 7 May was World Password Day? Every year on the first Thursday in May, World Password Day promotes better password habits. Despite what is going on in the world this might be the most important Password Day there has

been. With so many of us working from home our cybersecurity will be stretched to the limit.

COMMUNITY

This month we celebrate workers' month. Be wary of the various tactics and methods used by cyber criminals to "Phish" for your information. Avoid working hard to recover from a phishing attack, rather be smart and know how to spot phishing well in advance.

TRAINING & WEBINARS

Combating Cyber Threats During COVID-19

WHEN: Thursday, May 20 2021
TIME: 10:00 am EDT
04:00 pm SAST

Here are some of the top pandemic challenges for cybersecurity professionals:

- Raised number of threats.
- Poorly managed access to devices when employees work from home.
- People's mistakes due to low cybersecurity vigilance

Learn how to protect your organisation from all these threats by joining us on this webinar.

During the webinar, we will discuss:

- Aligning your cyber risk strategy & roadmap to business.
- Rolling out a cybersecurity transformation program.
- Employee cybersecurity awareness engagement.
- Incident management, business continuity, and crisis management.

Are you Ready to learn how to tackle new

cybersecurity challenges?
