
The Howl

November 2020

"The wolf howl is a distinct call to action for the pack over vast distances or to summon members when attacked."

Greetings cyber wolves,

As we begin the final month of what has been a difficult year for everyone around the world, we need to remember that this time of the year is especially bad for scams. This is why we have provided you with a **FREE** article that covers **travel scams** and a link to a new type of advent, the **Advent of Cyber**.

#protectioninthepack

The Wolfpack Team

Festive Season Travel Scams - Avoid Being Caught by Using These Tips

"Now is the perfect time for scammers to get to work on the unvigilant masses heading off to all sorts of destinations locally and abroad." We have created a **FREE** article that covers travel scams which you may face this festive season.

Access both versions for free via the **Alert Africa** site:

CYBER RANGES - Join our Webinar February 9 2021 - 11 to 12am (CAT)

[Click Here To Register for the webinar](#)

Learn, train, test, measure and improve your digital dexterity and cyber resilience on our next-gen military-grade CYBER RANGES platform and technology.

From recruitment assessment, staff training, red team versus blue team challenges or industry / national cyber drills, you can:

- Choose from 600+ realistic simulations.
- Customise your simulation environment - choose from a massive library of commercial security systems and applications.
- Choose the attacks to simulate.
- Choose your difficulty level - then mature your team's capabilities.

DEPLOYMENT OPTIONS

Training limitations are a thing of the past. Whether on-premise, on the cloud or on the move, CYBER RANGES allows you to deploy the option that suits your specific needs best.

1. AS A SERVICE - access on a monthly subscription or on demand
2. HOSTED - access to a private environment, granting the organisation full control
3. ON PREMISE - total control, security & additional access to additional functionality
4. PORTABLE - One shockproof cabin luggage with three powerful custom laptops, secure Internet Access Module, network switch and cabling.

Literally train anywhere and anytime.
