
The Howl

November 2020

"The wolf howl is a distinct call to action for the pack over vast distances or to summon members when attacked."

Greetings cyber wolves,

This week we are will be talking about **Black Friday**, a new community **Employment Portal**, and **CYBER RANGES** - a new military grade **Cybersecurity Training / Testing** platform to develop skills in Africa.

#protectioninthepack

The Wolfpack Team

Black Friday - Dont get Caught!

"Around this time of the year, many consumers eagerly anticipate bargains, as companies and retailers seek to rid themselves of excess stock and services available while turning a profit. This is all achieved by inducing a shopping frenzy known as Black Friday."

CYBER RANGES - Launching next month in South Africa

Learn, train, test, measure and improve your digital dexterity and cyber resilience on our next-gen military-grade CYBER RANGES platform and technology.

From recruitment assessment, staff training, red team versus blue team challenges or industry / national cyber drills, you can:

- Choose from 600+ realistic simulations
- Customise your simulation environment - choose from a massive library of commercial security systems and applications
- Choose the attacks to simulate
- Choose your difficulty level - then mature your team's capabilities

DEPLOYMENT OPTIONS

Training limitations are a thing of the past. Whether on-premise, on the cloud or on the move, CYBER RANGES allows you to deploy the option that suits your specific needs best.

1. AS A SERVICE - access on a monthly subscription or on demand
2. HOSTED - access to a private environment, granting the organisation full control
3. ON PREMISE - total control, security & additional access to additional functionality
4. PORTABLE - One shockproof cabin luggage with three powerful custom laptops, secure Internet Access Module, network switch and cabling.

Literally train anywhere and anytime.
