# The Howl

October 2020

*"The wolf howl is a distinct call to action for the pack over vast distances or to summon members when attacked."*

Greetings cyber wolves,

This week's theme: **Protecting Your Personal Information**

Free download below. Security awareness is a **team effort** - please do your part this week - you may help someone avoid much suffering!

## Top Video Conferencing Attacks and Security Best Practices

Video conferencing has become a routine part of everyday life for remote workers, students, and families. Yet widespread adoption of this technology has also attracted nefarious characters whose motivations can range from simple disruption to full-out espionage. It's important to understand these threats and how secure configuration of video conferencing systems can improve the overall security of an organisation and individual everyday users.
