CyberCon 2017 Weekly Update

Agenda - Line-up of Interactive Topics and Dynamic Speakers

Dear Reader

CyberCon Africa 2017 is an initiative which aims at improving and testing Africa's resilience to a large scale cyber attack.

This year's CyberCon Africa Conference places focus on the following:

 <p>Review our threat intelligence feeds to better understand the risk facing our country</p>	 <p>Understand the probable attack vectors that may be used</p>	 <p>Distribute a community incident response platform to allow us to collaborate better</p>
 <p>Provide all task teams with hands-on emergency incident management training aimed to proactively prepare for an incident</p>	 <p>Divide into industry sector teams to ensure better coordination amongst sectors and establish chains of command for incident handling and communication</p>	 <p>Provide all task teams with hands-on emergency incident response training – how to actively deal with an incident and a possible cyber forensic investigation</p>

See below for the full conference agenda, which includes interactive topics and a dynamic speaker line-up.

Day 1 - Open Threat Intel / Collaboration / Compliance Sessions - Monday 16 October 2017

Topics for day 1 include:

Prevent

- Global cybercrime collaboration
- A three-pronged approach to fight cybercrime: strategy, forensics and operations
- Disruptive future technology
- Using data security to solve business challenges

Detect

- African IT and cyber legal landscape
- SA cybercrime, Cyber Security Bill and AU convention on cyber security update
- EU GDPR and the impact on African companies processing EU citizens personal information
- Compliance track mind-mapper and panel facilitator
- Tracking the Mount Everest of cyber challenges facing Africa
