CyberCon 2017 Weekly Update

Introduction to Speakers

Dear Reader

Wolfpack has an **exciting list of speakers** lined up for the 5th Annual CyberCon Africa Conference. Kindly refer to their bios below for more interesting insights.

[Click here](#) for the event details or to register.

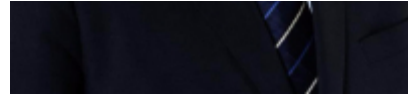

Steve Williams - Moore Stephens LLP

Steve Williams leads the information security, cyber and privacy group at Moore Stephens LLP.

He has a wealth of cross-industry experience in designing, assessing, managing and implementing proportionate procedures and controls to help organisations comply with international security and privacy requirements. He was the president of the Information Systems Audit and Control Association London Chapter and a member of the Institute of Chartered Accountants in England and Wales (ICAEW) IT Faculty Technical Committee. Steve has directed and published high-profile public reports in both financial services and the UK public sector, on topics as varied as financial crime and shared services.

Steve will be discussing the EU GDPR and the impact on African companies processing EU citizens personal information.

Sizwe Snail ka Mtuze - Snail Attorneys

Sizwe Snail ka Mtuze, a practicing attorney at Snail Attorneys and the international coordinator of the African Centre for Cyberlaw and Crime Prevention, based in Kampala, Uganda.

He is also known to be the author of multiple accredited and non-accredited articles on cyberlaw both locally and internationally. Furthermore, he has provided ad hoc lectures for the Law Society of South Africa, Association of Certified Fraud Examiners, University of Johannesburg, Fort Hare University and University of Pretoria, and comments on cyberlaw in various South African newspapers and radio talk shows. He is also the co-editor and author of the third-edition of Cyberlaw SA.

Sizwe will be presenting on SA cybercrime and the Cybersecurity Bill.

Steve Marshall - Risk-X

Steve Marshall specialises in business consulting, payments, compliance, breach clean-up, enterprise architecture validation, assurance, corporate/information security, security restructures and risk in sector leading organisations across many business verticals and markets.

Steve setup PTP Consulting (now Risk-X) with his team to provide leading audit, advisory, assurance and digital forensics globally. His early career focused on system and network administration / engineering / security on high throughput transactional platforms, video content delivery, high profile websites and hosting infrastructure. He then moved into management and senior management within several system integrators and consulting companies.

Steve will be discussing a case study on Insider Threat Incident Management.

Sean Glansbeek - Private Protocol

Sean Glansbeek, director at Private Protocol, has been in the information technology

sector for the last 30 years and has performed various roles such as technical, sales and management.

For the last eight years Sean has been focusing on building sound data security strategies aimed at solving customer business problems with data security solutions and service. Sean works very closely with information risk partners and system integrators, offering customers end-to-end data security and compliance strategies.

Sean will be discussing the use of data security to solve business challenges.
